

Black Vintage Artica

These original stereo Bluetooth headphones stand out for its minimalist design and Retro style: they are presented in two versions, black and white combined with brown leather cushions. Their sound quality and lightness are two of its strengths. Its Bluetooth connection (V2.1 + EDR) enables you to enjoy your music up to 10 meters from your device. They have a working time autonomy of up to 8h in music and 15h in conversation. In addition to this, Black and White Vintage Artica allow you to receive calls from your mobile phone: when the call enters, the music stops and you can answer it. You don't have to disconnect your headphones, as they incorporate a microphone that will allow you to communicate.
